PART III—SECTION 2

Notifications and Notices issued by the Patent Office relating to Patents and Designs

THE PATENT OFFICE Patents and Designs

Calcutta, the 5th June 1954

CORRIGENDUM

In the Gazette of India, Part III, Section 2, dated the 22nd May 1954, in Page 97, Column 1, after Line 10 under the heading "Special Notice"—

Insert the heading "Applications for Patents".

Applications for Patents

The dates shown in crescent brackets are the dates claimed under Section 78-A of the Act.

20th May 1954

- 51946. Inventa A.G. fur Forschung und Patentverwertung. Method of continuously regulating the degree of crimping of a tow or cable of fibres.
- 51947. Continental Can Company, Incorporated. Closure with sealing pad having concentric ribs.
- 51948. Continental Can Company, Incorporated. Art of making closure members by curing and molding a compound in the closure shell.
- 51949. Lamson Paragon Supply Company Limited. Improvements in and relating to carbon transfer webs.
- 51950. The British Tabulating Machine Company Limited. Improvements in or relating to calculating checking apparatus. (29th May 1953).
- 51951. The British Tabulating Machine Company Limited. Improvements in or relating to electronic calculating apparatus. (29th May 1953).
- 51952. The British Tabulating Machine Company Limited. Improvements in or relating to magnetic storage devices. (14th October 1953).
- 51953. Om Prakash Ananya. Combination device of a tin cutter, bottle opener and cork screw.

21st May 1954

- 51954. Rheinpreussen Aktiengesellschaft fuer Bergbau und Chemie. Process for the regeneration of iron catalysts.
- 51955. Andre Rubber Company Limited. Improvements in or relating to resilient torsion joints. (17th November 1953).
- 51956. International Business Machines Corporation. Sorter for tape recorded data. (8th January 1954).
- 51957. Standard Telephones and Cables Limited. Improvements in or relating to electrical connecting circuits. (29th May 1953).

22nd May 1954

- 51958. Council of Scientific and Industrial Research. Manufacture of ethylene dichloride.
- 51959. D. N. Dastoor. Improvements in or relating to a device for cleaning cotton in the blow room department.

- 51960. D. N. Dastoor. Improvements in or relating to carding engines.
- 51961. Rotary Hoes Limited. Road making machines.
- 51962. Charles St. Clair Creed and Kamal Kishore Agarwala. Glass heating appliances.
- 51963. N. V. De Bataafsche Petroleum Maatschappij. Oleaginous compositions.
- 51964. The Distillers Company Limited. Method of working materials. (10th June 1953).
- 51965. J. R. Geigy A.-G. New derivative of 1,2,4-triazine. (5th May 1954).
- 51966. Merck and Co., Inc. New antibiotic agents. (11th July 1953).

24th May 1954

- 51967. P. H. Rao. Electro-magnet lamp unit.
- 51968. Standard Oil Development Company. Improvements in or relating to fluid coking of heavy hydrocarbons and apparatus therefor.
- 51969. The British Oxygen Company Limited. Separation of air.
- 51970. P. M. Agerwala, Rama Kant and D. F. D. Joshi. Improvements in and relating to register translators, particularly for multi-exchange telephone systems.
- 51971. The National Rayon Corporation Limited, Dr. M. D. Parekh, J. J. Mehta and V. Y. Divekar. Improvements in or relating to the spinning of viscose rayon and other yarn.
- 51972. Horizons Titanium Corporation. Chemical manufacture.
- 51973. Atullah Khan Ozai-Durrani. Method of treating rice grains and the grains so treated.
- 51974. Farmaceutici Italia S.A. Process for converting optically active aminodiols into racemic aminodiols.
- 51975. David Brown Tractors (Engineering) Limited. Improvements in or relating to tractor-implementation combinations. (26th May 1953).
- 51976. Lacrinoid Products Limited and R. Hagen. Improvements in or relating to the manufacture of hollow articles from organic plastic materials. (17th June 1953).
- 51977. Laporte Chemicals Limited. Improvements in or relating to catalytic hydrogenation. (9th June 1953).
- 51978. Chubb and Son's Lock and Safe Company Limited. Improvements in and relating to locks. (29th June 1953).
- 51979. R. Kaulen. Method for preparing of printing forms, especially of printing cylinders, for copper plate printing.
- 51980. Ciba Limited. Manufacture of new halogen-pyridazines.
- 51981. Ciba Limited. Manufacture of new pyridazines.

51982. Ciba Limited. Manufacture of new alkyl-pyridazines.
51983. Fairwest (U.K.), Limited. Improvements in or relating to circular looms. (Addition to No. 49030). (Divisional date, February 20, 1953).
25th May 1954
51984. G. Osame. Improvements in or relating to electrostatic-coating machine.
51985. Tokyo Shibaura Electric Co., Ltd. Improvements in or relating to binder.
51986. Tokyo Shibaura Electric Co., Ltd. Improvements in or relating to binder.
51987. N. V. De Bataafsche Petroleum Maatschappij. Process for the fractionation of microporous solid particles.
51988. The Chairman, Indian Tea Association. Improvements in or relating to machines for processing tea leaf and like commodities.
51989. E. H. Bishop. Twin-slab cavity-wall building blocks and method and apparatus for making them. (4th June 1953).
51990. The General Electric Company Limited. Improvements in or relating to electric pulse generators. (29th May 1953).
51991. Ernest S. Nossen. A process for the thermal decomposition of a metal salt and products made by said process.
51992. Imperial Chemical Industries Limited. Improvements in or relating to polyvinyl acetate-polyvinyl chloride co-polymers. (1st June 1953).
51993. Portasil Limited. Improvements in or relating to structural or reinforcing elements made wholly or principally from wood. (1st June 1953).
51994. A. F. Sanders. Means for driving a fuel injection pump of an internal combustion engine of the compression ignition type to prevent positive reverse rotation of the engine.
51995. Societe Anonyme Pour Les Applications De L'Electricite Et Des Gaz Rares—Etablissements Claude-Paz and Silva. Method of manufacturing an electrode for discharge device.
51996. The Edison Swan Electric Company Limited. Improvements relating to incandescent electric lamps. (17th June 1953).
51997. Oldham & Son Limited. Improvements in or relating to portable electric battery lamps. (26th May 1953).
51998. S. G. Tawde and P. K. Junnarkar. Improvements in or relating to mirrors.
51999. J. A. Kavanagh and R. J. Marcy. Resilient shoe counter and shoe construction containing same.
52000. J. A. Kavanagh and R. J. Marcy. Method of securing shoe counter in shoe.
52001. H. J. Elliott and L. G. Ludlow. Improvements in or relating to the separation of sulphur from sulphur ores.
26th May 1954
52002. N. D. Bharucha. Drum type dumper.
52003. Council of Scientific and Industrial Research. Improvements in or relating to the preparation of quinoline compounds.
52004. Olympia Werke West G.m.b.H. A typewriter for oriental languages. (24th February 1954).
52005. Imperial Chemical Industries Limited. Improvements in or relating to titanium base alloys. (1st June 1953).
52006. Societe D'Etudes Et De Participations Eau, Gaz, Electricite Energie. S.A. Improvements in free-piston machines including a pneumatic return-energy accumulator.
52007. Ateliers De La Motobecane. Automatic centrifugal variable speed devices, especially for autocycles with a primary belt drive.
52008. Ateliers De La Motobecane. Improvements relating to twist-grip devices for autocycles and the like.
52009. H. Morren. Organic esters of 2-(2-diethylaminoethoxy)-ethanol and their process of preparation.
52010. United States Steel Corporation. Apparatus for identifying opposite sides of a moving strip.
52011. Smitsvonk N.V. Sparking element for a low tension surface discharge sparking plug.
52012. Smitsvonk N.V. Distributor for low tension ignition system with condenser discharging.

Alteration of Date

49089. Ante-dated 23rd August 1952, under Section 5 of the Act.

Applications Accepted

Notice is hereby given that all persons interested in opposing the grant of patents on any one of the applications referred to below may at any time within four months of the date of this Gazette of India give notice to the Patents Office in the prescribed form No. 6 of the Indian Patents and Designs Rules, 1933, of such opposition.

A limited number of printed copies of the specifications in the following list will be available for sale from the Manager of Publications, Civil Lines, Delhi, and also on cash payment at the counter of the Government of India. Central Book Depot, 8, Hastings Street, Calcutta, in the course. The price of each specification is Rs. 2 (postage extra, if sent out of India). Requisition for the supply of printed specifications should be accompanied by the numbers of the specifications as shown in the following list.

If required typed copies of the specification together with copies of drawings, if any, can be supplied by the Patent Office, on payment of the necessary charge which may be ascertained on application to the office.

The dates shown in crescent brackets are the dates allowed under Section 78-A of the Act.

47939. E. Gretener. Apparatus for the reproduction of colour, particularly for colour television and for photographic colour reproduction. Accepted on 21st May 1954.

Employing colour pick-up means for analysing colour into colour components, the characteristics of the pick-up means being so determined and adjusted that a selected colour (other than white) is analysed into colour components of which at least two have ratio equal to unity, whilst white is analysed into ratio of all colour components different from unity.

48004. E. T. S. Monk. Draught promoting appliance. Accepted on 25th May 1954.

Steam gas or liquid jet nozzle, intakes for forced and/or induced or natural draughts, passage for combining two or more draughts and discharging them and independent control means for jet and draught intakes.

48049. Nsu Werke Aktiengesellschaft. Overhead cam shaft drive for internal combustion engines. Accepted on 26th May 1954.

Overhead cam shaft driven by balanced crank gear mounted on case pivotable on cylinder head about axis perpendicular to cam shaft.

48468. Durand and Huguenin A.-G. Process for the manufacture of sulphuric acid ester salts of leuco vat dyestuffs of the anthraquinone series. (Addition to No. 44815). Accepted on 21st May 1954.

Instead of or in addition to diethyl-cyclohexylamine, at least one diethyl-(monomethyl-cyclohexyl)-amine is used.

48477. Mousell & Co. Ltd. Percussion apparatus. Accepted on 24th May 1954.

A striking rod is provided in a guide tube and a tool is attached to the lower end of the guide tube and the whole device is used for giving percussion.

48498. S. Takakita, S. Takakita, M. Takakita, T. Takakita and A. Takakita. Breast of plough. Accepted on 25th May 1954.

Comprising a number of elongated metallic strips combined universally and severally in parallel relation, and regulating means adapted to adjust the angle of recline of the breast as a whole and to twist the surface of the breast.

48505. Mousell & Co. Ltd. Manually powered tool for earth hole boring. Accepted on 24th May 1954.

The earth boring tool is made of two part of which one is detachable and a cutting edge is provided at the lower end of the two parts.

48526. Dunlop Rubber Company Limited. Improvements in the manufacture of tennis and like inflated balls. (8th December 1951). Accepted on 22nd May 1954.
- By applying a layer of feltable fibres to an inflated core carrying a surface layer of substantial thickness of a material removable in fluid form during felting.*
48614. T. Hindmarch. Improved power transmission mechanism. (27th February 1952). Accepted on 25th May 1954.
- Two or more pinions on one or more intermediate shafts engaging directly or indirectly pinions on parallel input and output shafts; at least two pinions freely rotatable and having fluid operated clutches for driving connection with their shafts, other pinions being fast on their shafts.*
48661. N.V. De Bataafsche Petroleum Maatschappij. Process for separating one or more solid substances, such as solid hydrocarbons or complex hydrocarbon compounds, from a mixture thereof with oil. Accepted on 26th May 1954.
- A part of the used auxiliary phase is brought into contact with oil or a mixture of oil and solid substance still to be treated, preferably in counterflow.*
48692. Dipl. Ing. W. Degen. Filter, especially for piped wells. Accepted on 24th May 1954.
- Perforated filter bodies are covered with gravel the particles of which are bounded to one another and adhered to the wall by means of a synthetic resin.*
48747. Anstalt für die Entwicklung von Erfindungen und gewerblichen Anwendungen ENERGIA. Projectile equipped with a safety device. Accepted on 24th May 1954.
- The detonator is housed in the inoperative position inside a safety cage and is adapted, after firing of the shot to take up its operative position.*
48800. The General Electric Company Limited. Improvements in or relating to electric motor control systems. (17th January 1952). Accepted on 25th May 1954.
- Comprising a speed setting control and wherein a quantity responsive to actual speed is compared with a quantity responsive to the setting of the speed control.*
48807. Etablissements NEYRPIEC. Improvements in regulating throttle devices for use in hydraulic installations. (11th March 1952). Accepted on 26th May 1954.
- A throttle member of circular cross section having a greater diameter than the vertical nozzle opening is supported to swing laterally.*
48918. Ciba Limited. Process for the manufacture of new methyl steroids. Accepted on 22nd May 1954.
- Preparing 14, methyl steroids having in 3- and 17- or 20-positions free or functionally converted hydroxyl or oxo-group by methods known per se.*
49047. The Parker Pen Company. Writing instrument. Accepted on 20th May 1954.
- Ball socket member is formed of glass and the ball is formed of a material as hard as glass.*
49089. Ray-O-Vac Company. Improvements relating to alkaline electric cells. (Divisional date, August 23, 1952). Accepted on 24th May 1954.
- A layer of tin interposed between zinc electrode and a terminal in surface contact with the electrode and terminal.*
49210. N. V. Philips' Gloeilampenfabrieken. Improvements in or relating to cold-gas refrigerating machines having at least two spaces, the volumes of which vary continuously with a substantially constant phase difference. Accepted on 25th May 1954.
- Providing a filler for the regenerator which comprises elements through which at least a portion of the gas which passes is in thermal contact with a medium independent of the cycle.*
49550. Arvey Corporation. Manufacture of new polycyclic compounds and insecticidal compositions prepared therewith. Accepted on 20th May 1954.
- By reacting cyclopentadiene and hexahydrogenated polycyclic diene to produce two to five linearly fused bicyclo-(2-2-1)-heptane ring.*
49764. P. M. Huidobro and J. N. Escobar. A process for the manufacture of insecticidal composition. Accepted on 20th May 1954.
- Treating essence of turpentine with H_2SO_4 neutralising the liquid with alkali collecting the produced terpene and incorporating it in benzene hexachloride.*
49993. E. V. Twose Limited. Improvements relating to rolling appliances for rolling roads, footpaths, air strips, fields and like ground surfaces. (6th May 1953). Accepted on 21st May 1954.
- Comprising a chassis frame having ground rollers, adapted to be propelled along the ground by drive from the motor of a tractor landed upon said frame.*
50202. A. Hindle. Improvements in and relating to the manufacture of cuprous compounds, particularly cuprous chloride and cuprous oxide. Accepted on 25th May 1954.
- Reacting together acid sodium sulphate, sodium chloride and copper either yielding oxygen or with oxidising agent.*
50203. A. Hindle. Improvements in and relating to the manufacture of basic copper chloride. Accepted on 25th May 1954.
- Reacting a mixed mass of sodium and copper sulphates with acid sodium sulphate and copper or copper oxide with reagent to bring chlorine.*
50497. Eckart Werke Standard Bronzepulver-Werke Carl Eckart. Improvements in or relating to a method of making a paint and other solutions. Accepted on 26th May 1954.
- Filling the colouring matter into a receptacle made of a material which is soluble in a solvent or dispersion medium and introducing the receptacle into said solvent or dispersion medium.*
50546. Standard Oil Development Company. Improvements in or relating to a combination process for the distillation of crude oil. Accepted on 25th May 1954.
- The reduced crude is introduced into a fractionation zone and stripped to remove hydrocarbon constituents of the gas oil boiling range, with hydrocarbon vapours produced in a catalytic cracking operation, the gas oil fraction is segregated and cracked to produce at least a portion of vapours used for stripping.*
50552. Grasso's Machinefabrieken N.V. Improved freezing apparatus for making ice blocks. Accepted on 21st May 1954.
- Comprising ice-cells with cooling jackets and having an air suction pipe, the cell being closed at the upper end and open at the lower end.*
50555. Olympia Werke West G.m.b.H. Improvements in or relating to typewriters suited for oriental languages. (14th August 1953). Accepted on 24th May 1954.
- Characterised in that for the limitation of the stroke of the loose escapement dog a control lever is provided which is operatively connected to an actuating bar.*
50713. American Home Products Corporation. Improvements in or relating to stabilized aqueous hyaluronidase solutions. (9th June 1953). Accepted on 25th May 1954.
- Comprising hyaluronidase, ethylenediamine-tetraacetic acid and a salt consisting of sodium chloride or calcium chloride.*
50739. F. Limb. Improvements in and relating to rotary chamber mills. (11th December 1952). Accepted on 24th May 1954.
- Rotary mill driven simultaneously about two axis of rotation, which cross within the chamber.*

- 50743.** Gusstahlwerk Witten Aktiengesellschaft. Method of and device for performing cut-off operations. Accepted on 26th May 1954.
- The feed motion is made by pivoting the work-piece relative to the rotary cutting tool about an axis lying parallel to the tool axis and at the point of first contact between the tool and work-piece.*
- 50764.** General Railway Signal Company. Improvements relating to electromagnetic relays. Accepted on 25th May 1954.
- Consisting of two cores with a cooperating armature pivoted between one pair of ends of a pair of cores, a core block connecting the other pair of ends of the cores, a permanent magnet and a winding on at least one of the cores.*
- 50782.** Council of Scientific and Industrial Research. Improvements in or relating to tanning liquors. Accepted on 24th May 1954.
- Comprises reducing a bichromate with a metal like aluminium or iron in presence of an acid such as sulphuric or hydrochloric acid.*
- 50824.** Creed and Company Limited. Improvements in or relating to printing telegraph apparatus. (12th December 1952). Accepted on 24th May 1954.
- In which notched discs rotatable into positions according to received signals, for selecting a character for printing, are connected by Bowden cables to corresponding members of a tape perforating mechanism.*
- 50864.** Council of Scientific and Industrial Research. Preparation of 2-hydroxy-3 : 6-dimethoxy acetophenone. Accepted on 21st May 1954.
- 2, 5-Dihydroxy-6-methoxy acetophenone is fully methylated to the trimethoxy ketone and subsequently partially dimethylated with aluminium chloride to yield 2-hydroxy-3, 6-dimethoxy acetophenone.*
- 50901.** Casablancas High Draft Company Limited. Improvements in roving guides for textile fibre drafting mechanisms. (20th January 1953). Accepted on 24th May 1954.
- A roving guide including a wedge-like body having a single funnel-like aperture extending there through and a separator finger.*
- 50909.** Les Usines De Melle. Process for the azeotropic dehydration of aqueous acetic acid or mixtures of acetic acid, acetic anhydride and water. Accepted on 24th May 1954.
- Quiescent zone is provided to receive liquid reflux from additional distilling zone and to be passed through without bubbling by rising vapour flow.*
- 50948.** Wingfoot Corporation. Improvements in tube splicer. Accepted on 25th May 1954.
- Comprising in combination means for clamping the tube stock, means for cutting, anvil means for coaction with cutting means and means for retracting the anvil means.*
- 50979.** J. Coops and G.A. Feenstra. Process for checking the fouling of objects, in particular hulls of ships, in sea water. Accepted on 21st May 1954.
- Hulls of ships are sprayed with combustion gases under water.*
- 50981.** Eonit Engineering Company, Limited. Cement batching plant. (14th January 1953). Accepted on 21st May 1954.
- Comprising and upper storage hopper, a lower feed hopper, an archimedian screw elevator and feed hopper the feed hopper having means for aerating.*
- 50988.** The Sagami Gomu Kogyo Co. Ltd. Apparatus for the continuous production of rubber sacks and the like. Accepted on 24th May 1954.
- A number of models or patterns are removably fixed to an endless chain which are guided to pass through treating zones.*
- 51008.** E. K. Conradty, P. Conradty, M. Conradty and C. Conradty. Improvements in or relating to arc lamp cathodes. Accepted on 24th May 1954.
- Containing two parallel cores, the spacing of which varies depending on the current load and the diameter of the anode, but which is at least 0.5 mm.*
- 51187.** Ciba Limited. Process for improving the fastness to rubbing of dyeings and prints. Accepted on 25th May 1954.
- The dyeing is after-treated with a reaction product of an $\alpha : \beta$ -alkylene oxide and an organic compound which contains at least one basic primary or secondary amino group or a basic tertiary amino group and an alcoholic hydroxyl group.*
- 51216.** Societe Anonyme Des Manufactures Des Glaces Et Produits Chimiques De Saint-Gobain, Chauny & Cirey. Curved glazing sheets and processes and apparatus for their manufacture. Accepted on 22nd May 1954.
- Consisting heating the sheet to the softening point curving it and thereafter cooling it again heating non reserved part of it.*
- 51227.** Merck & Co., Inc. Antitubercular compositions. Accepted on 21st May 1954.
- The composition comprises a compound having a labile ethyl-thio radical in a carrier.*
- 51255.** D. S. Roberts. Improved incandescent electric lamp with dual or stand by filaments. Accepted on 26th May 1954.
- Multiple filament lamp with filaments connection to contacts on bulb-cap, two of the contacts being connected to electric supply line and on failure of one filament the lamp is taken out of the socket and one or more contacts on the bulb-cap are connected together so that a second standby filament comes into service.*
- 51330.** T.M.M. (Research) Limited. Improvements in the drafting apparatus of textile spinning and like machines. (27th February 1953). Accepted on 21st May 1954.
- The upper drafting elements being mounted upon the upper surfaces of the pivotal arms and being loaded through the medium of an auxiliary arm.*
- 51377.** Stamicarbon N.V. Method of separating a mixture of solid particles into fractions by means of a hydrocyclone. Accepted on 25th May 1954.
- Wherein the separation is effected with a hydrocyclone positioned with its axis making an angle of 45° or more to the vertical.*

Printed Specifications Published

A limited number of printed copies of the undernoted, specifications are available for sale from the Manager of Publications, Civil Lines, Delhi, or on cash payment at the counter of the Government of India, Central Book Depot, 8, Hastings Street, Calcutta, at two rupees per copy :—

45932. 46017. 46018. 46020. 46429. 46524. 46525. 46542. 46547. 46554. 46560. 46571. 46597. 46631. 46738. 46747. 46749. 46787. 46924. 46951. 47412. 47598. 47635. 47691. 47953. 48007. 48360. 48428. 48584. 48626. 48742. 48810. 48834. 48835. 48932. 49148. 49298. 49394. 49441. 49469. 49587. 49631. 49716.

Appeal Proceedings

Section 9

An appeal has been filed by Mr. Charles Martin Sweet against the decision of the Controller of Patents and Designs on the opposition to the grant of a patent on application No. 45318.

Amendment Proceedings

The amendment proposed by Glaxo Laboratories Limited in respect of Patent No. 49129 as advertised in the Gazette of India, Part III, Section 2, dated the 20th February 1954 has been allowed.

Registration of Assignments, Licences, Etc.

Assignments, Licences or other transaction affecting the interests of the original patentees have been registered in the following cases. The number of each case is followed by the names of the parties claiming interest :—

45603. Carrier Corporation.

Renewal Fees Paid

19400. 19428. 22069. 22133. 22202. 23095. 23135. 23159. 23234.
23235. 24017. 24218. 24400. 24892. 26803. 26829. 27623. 27677.
28109. 28120. 28151. 28233. 28420. 28983. 29764. 29818. 29885.
29896. 29897. 29898. 29899. 29901. 29903. 29904. 29905. 29906.
